

**BAUSCH
& LOMB**

Ocuvite® PreserVision®
The ONLY Clinically Proven Effective Product
Eye Vitamin and Mineral Supplement†

Unique High-Potency
Eye Vitamin and
Mineral Supplement

- Age-related macular degeneration is the leading cause of vision loss and blindness in people over 55. The National Institutes of Health (NIH) Age Related Eye Disease Study (AREDS) proved that a unique high-potency vitamin and mineral supplement was effective in helping to preserve the sight of certain people most at risk.*
- †Bausch & Lomb **Ocuvite PreserVision** was the one and only eye vitamin and mineral supplement tested and clinically proven effective in the NIH AREDS Study.
- Bausch & Lomb **Ocuvite PreserVision** is a high-potency antioxidant and mineral supplement with the antioxidant vitamins A, C, E and select minerals in amounts well above those in ordinary multivitamins and generally cannot be attained through diet alone.

RECOMMENDED INTAKE: To get the high levels proven in the NIH AREDS Study it is important to take 4 tablets per day – 2 in the morning, 2 in the evening taken with meals.

SMOKERS: Please consult your eye care professional about the risks associated with smoking and using Beta-Carotene.

Bausch & Lomb Ocuvite PreserVision
is the #1 recommended eye vitamin and mineral
supplement brand among Retina Specialists.¹
